Series 6

## XT 100 Heavy Duty

The XT 100 is a cost-effective rubber track ideal for general agricultural use. Designed for tractors, harvesters, and beet carts, it is a perfect choice for farmers seeking a balance of performance and economy.

The XT 100 is available for a wide range of friction drive machines and comes with a **36 month/ 3000 hour warranty** as standard.

Suitable For:

General Ag

- Built with STRYDER's core technology, including a fully vulcanised mould, curved tread bars, and copper-coated cables, it ensures great durability and optimal traction.

### Made with:

- ✓ Curved Tread Bars - for increased traction & reduced vibration.
- ✓ Vulcanised Moulding - to prevent lug tears
- ✓ Copper-Coated Cables - for enhanced rubber to cable bonding.

\*Find track specifications for the **XT 100** to fit your machine on our website or ask an Outland member of staff.

## XT 100 P Heavy Duty

(For Positive Drive Machines)

The XT 100 P is a cost-effective solution designed for optimal performance in general agricultural applications.

The XT 100 P is available for a wide range of positive drive machines and comes with a **24 month/ 2000 hour warranty** as standard.

Suitable For:

General Ag

- Explicitly designed for positive drive machines.
- This track has a shallower tread depth and is engineered to maintain superior traction and tread bar integrity, even under high horsepower and torque stress.
- Built upon STRYDER's foundation of quality, this track incorporates a fully vulcanised mould, optimised tread bar design, and copper-coated main cables to ensure longevity and reliability.

### Made with:

Dual Angle Tread Bars  
- for increased traction  
& reduced vibration.

Vulcanised Moulding  
- to prevent lug tears

Copper-Coated Cables  
- for enhanced rubber to  
cable bonding.

\*Find track specifications for the **XT 100 P** to fit your machine on our website or ask an Outland member of staff.

**STRYDER**

## XT 200 Heavy Duty

Designed for maximum traction, the STRYDER XT 200 is the ultimate rubber track for tractors and harvesters operating in challenging conditions.

The XT 200 is available for a wide range of friction drive machines and comes with a **36 month/ 3000 hour warranty** as standard.

Suitable For:

General Ag

Heavy Ag

- High-volume tread bars with a 7.8-inch pitch, delivering superior grip even in heavy soils, clay, wet ground, and stubble in damp conditions.
- Offers the highest traction capabilities of all STRYDER track.
- Long curved tread bars for optimised traction and comfort.

### Made with:

Curved Tread Bars  
- for increased traction  
& reduced vibration.

Vulcanised Moulding  
- to prevent lug tears

Copper-Coated Cables  
- for enhanced rubber to  
cable bonding.

\*Find track specifications for the **XT 200** to fit your machine on our website or ask an Outland member of staff.

**STRYDER**

## DURA 100 Super Duty

This is the perfect track for those wanting versatility and durability. It's designed to be a robust, reliable and long-lasting solution for your tractor or harvester.

The DURA 100 is available for a wide range of friction drive machines and comes with a **36 month/ 3000 hour warranty** as standard.

Suitable For:

General Ag

Heavy Ag

Scraper

- A perfect all-purpose track with an advanced rubber compound for enhanced durability.
- Thick, heavy, vulcanised carcass designed to be robust for a variety of applications.
- Long curved tread bars with a 6-Inch pitch for optimised traction and comfort.

### Made with:

Curved Tread Bars  
- for increased traction  
& reduced vibration.

Vulcanised Moulding  
- to prevent lug tears

Copper-Coated Cables  
- for enhanced rubber to  
cable bonding.

\*Find track specifications for the **DURA 100** to fit your machine on our website or ask an Outland member of staff.

**STRYDER**

## DURA 100 P Super Duty

(For Positive Drive Machines)

This is the perfect track for those wanting versatility and durability. The DURA 100 P is engineered specifically for the demands of positive-drive tractors and harvesters.

The DURA 100 P is available for a wide range of positive drive machines and comes with a **24 month/ 2000 hour warranty** as standard.

Suitable For:

General Ag

Heavy Ag

Scraper

- Explicitly designed for positive drive machines.
- A perfect all-purpose track with an advanced rubber compound for enhanced durability.
- Thick, heavy, vulcanised carcass designed to be robust for various applications.
- Maintains the traditional straight tread bar design but incorporates wider bars for increased durability, reflecting the character of the STRYDER DURA range

### Made with:

✓ Vulcanised Moulding  
- to prevent lug tears

✓ Copper-Coated Cables  
- for enhanced rubber to cable bonding.

\*Find track specifications for the **DURA 100 P** to fit your machine on our website or ask an Outland member of staff.

**STRYDER**

## DURA 200 Super Duty

Engineered for maximum durability and traction, the STRYDER DURA 200 is the ultimate choice for demanding agricultural applications.

The DURA 200 is available for a wide range of friction drive machines and comes with a **36 month/ 3000 hour warranty** as standard.

Suitable For:

General Ag

Heavy Ag

Scraper

- Advanced rubber compound for wear resistance and longevity.
- Ultra-thick, robust carcass with fully vulcanised moulding for strength and uniformity.
- Long, wide and high-volume curved tread bars, combined with a 6.75-inch tread bar pitch, deliver superior grip, stability and optimal self-cleaning capabilities.

### Made with:

Curved Tread Bars  
- for increased traction  
& reduced vibration.

Vulcanised Moulding  
- to prevent lug tears

Copper-Coated Cables  
- for enhanced rubber to  
cable bonding.

\*Find track specifications for the **DURA 200** to fit your machine on our website or ask an Outland member of staff.

**BRIDGESTONE**

## SERIES 6

Designed for optimal performance on tractors and harvesters, Bridgestone Series 6 tracks offer a superior combination of durability and traction.

The SERIES 6 is available for a wide range of friction drive machines and comes with a **36 month/ 3000 hour warranty** as standard.

Suitable For:

General Ag

Heavy Ag

Scraper

- Premium rubber compound that excels in wear and cut resistance for an extended track lifespan.
- Optimised cable and ply design that reduces internal stress, guarantees consistent performance and increases longevity.
- Optimised dual-angle tread bar design for some of the highest traction capabilities on the market.

### Made with:

Dual Angle Tread Bars  
- for increased traction  
& reduced vibration.

Vulcanised Moulding  
- to prevent lug tears

Copper-Coated Cables  
- for enhanced rubber to  
cable bonding.

\*Find track specifications for the **SERIES 6** to fit your machine on our website or ask an Outland member of staff.
